## Document Body

Carmen,

As a follow-up to our earlier call, the gradational specification for the crushed concrete will meet the Greenbook spec for crushed miscellaneous base (Spec #200.2.4). The grain sizes will vary, with the maximum size not to exceed ~1.5-inches, and the smaller grain sizes will range from less than ~1.5-inches to 0.003-inches. Please let me know if you need any additional information.

Thank you,

**Linda Conlan, PG**

**Principal Geologist**

**AMEC Geomatrix, Inc.**
